Sewing Recommendations

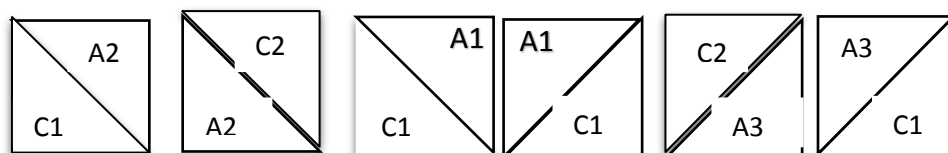

After your finished 36 squares are sewn, sew rows together by matching the square blocks using the correct angle, and then sew a ¼ inch seam. After all blocks are sewn, machine or hand quilt. I recommend sewing Row 1a and Row 2 A blocks together and continue with that method until you get to 1F and 2F, then start the next two rows. Then, sew the three completed rows together, then add borders to make a 50X50 or 52X52 lap quilt. After all blocks are sewn, machine or hand quilt. See Figure 1, on page three (4).
